Full Stack Web Developer with a Bachelor's degree in Biomedical Engineering and life-long dedication to learning. Effective at combining creativity and problem-solving to develop user-friendly applications. Known among staff for strong wit and attention to detail no matter the complexity of the project. Specializes in front-end development using popular technologies such as JavaScript, React, Node.JS, Express, MySQL, and MongoDB. Possesses strong technical skills and independence, as well as a background in client services, providing a keen ear for successful project development and deployment. Seeking a full-time, long-term position to leverage my skills and experience.

TECHNICAL SKILLS

Front-end: JavaScript (ES6), React, Redux, GraphQL, Handlebars, Bootstrap, HTML, CSS, Figma, Web API
Back-end: Express, Node.js, WordPress, MySQL, MongoDB
Other Related: Heroku, Insomnia, PostMan, Git/GitHub, Jira

EXPERIENCE

Lokum | *Software Support Engineer (Part-Time)* | Houston, TX   2023-Present
- Contribute to development efforts using React and JavaScript within an agile methodology framework.
- Facilitate and manage communication between clients and the company.
- Triage user interactions and deliver client training.
- Improve front-end and back-end software based on customer feedback.
- Collaborate closely with the client services team, as well as regularly engaging with the company C-Suite, product, and software engineering teams.
- Work as part of a Scrum Master team

Techwave | *Full Stack Web Developer (Part-time)* | Houston, TX   2022-Present
- Design, maintain and build reusable, efficient, and reliable software (Java) code.
- Develop a service layer that acts as a bridge between the presentation layer and the data access layer, with the spring framework.
- Proficient in Figma for front-end design, with experience creating wireframes, prototypes, and high-fidelity mockups for web and mobile applications.

Sterling McCall Nissan | *Car Sales Consultant* | Houston, TX   2020-2022
- Informed and assisted customers with the purchase of new vehicles.
- Ranked number 5 in the nation for selling Nissan EV cars.
- Updated myself every day with new car technology to explain it better for customers.
- Built rapport and established relationships with customers to understand their needs and preferences.

EDUCATION

Certificate in Full Stack Web Development | Rice University | Houston, TX   2023
Bachelor of Biomedical Engineering | Azad University; Science & research | Tehran, Iran   2014

PROJECT HIGHLIGHTS

My-Stores | *GitHub:* https://tinyurl.com/2twpaf32 | *Deployed:* https://my-stores.herokuapp.com/
- Built a full-stack MERN application using React, GraphQL, Node.js, Express.js, and MongoDB, with authentication.
- Focused on user demand, with a polished, responsive, and interactive UI, and adhered to quality coding standards and best practices.

Clothingurusss | *GitHub:* https://github.com/moreza66/project2_clothingurusss | *Deployed:* https://clothingurusss.herokuapp.com/
- Work in a small team to design, develop and test client-server interaction that maximizes practical and relevant information retrieval.
- MySQL and Sequelize ORM for database interactions and JavaScript, Node.js, Express.js and RESTful API for front-end interactions.

Movie Time | *GitHub:* https://github.com/moreza66/Movie-Time | *Deployment:* https://moreza66.github.io/Movie-Time/
- Developed a responsive web application that prioritizes delivery of movie information to the user based on their inputs.
- All interactions written in HTML, Bulma, JavaScript with data delivery from local storage systems
